## SHOES: That's All.

We are not bothered with an endless number of stocks. We do not sell dress goods, rakes, ice cream freezers, corsets, or mackerel: Shoes are the one, the sole stock in which we are interested—on which we fix our minds. By concentrating our thought and energy in the shoe business alone we are enabled to keep a close watch on the market; to know where and when good things are to be had in footwear; to secure the very best terms—in short, to serve you better and with more economy than is possible with any house trying to keep a dozen-and-one businesses balanced on one mental and financial pole.
